# King John and the Magna Carta

- To know about the Magna Carta
- To consider the impact of the Magna Carta
- To work in teams to answer historical questions

# 'Which parts of Magna Carta benefitted the most people?'

- Read through the different points taken from Magna Carta (ranking sheet).
1. Which points benefitted the most people in England (remember that most people in England were peasants)?
  2. Try and put them in an order from benefitted the most, to benefitted the least.

# The Magna Carta

The Magna Carta contained 63 'promises' or agreements between King John and the barons

Some of the most important ones were:

- The English Church should be free to choose its own bishops and archbishops
- A baron's son should inherit his father's lands after paying the king £100, and no more
- The king cannot raise a tax unless the barons and bishops agree to it in the Great Council (an early type of Parliament)
- People found guilty of a crime in a court of law will not have to pay huge fines for small crimes
- No government official can take the corn, horses, carts or wood of a freeman (someone who is not a peasant) unless the freeman agrees
- No freeman can be arrested or imprisoned without a proper trial by his equals (a jury) All merchants are free to travel and trade where they want without having to pay tolls (taxes to use certain roads)
- The king will immediately return all hostages he took to make people support him
- The king will send out of England all the foreign knights and soldiers he hired

# TASK 2: John and The Magna Carta
